REQUEST FOR DECLARATION OF INTERFERENCE

Commissioner of Patents
Washington, D.C. 20231

Dear Sir:

Applicants seek to have an interference declared between this application and a U.S. patent. In support thereof, this Request and the enclosed documents supply information pursuant to 37 C.F.R. §§ 1.607 and 1.608.

A. 37 C.F.R. § 1.607

The following information is supplied pursuant to 37 C.F.R. § 1.607(a) and (c):

(1) Identity of Opposed Patent:

U.S. Patent 6,127,175 (Vigne et al.).

(2) Proposed Counts:

(a) A recombinant cell line for the production of a defective adenovirus, comprising, inserted into its genome, part of an adenovirus E4 region comprising an ORF6 reading frame under the control of a functional promoter, wherein the inserted E4 region does not contain a functional ORF4 reading frame.

(b) A plasmid comprising part of an E4 region of an adenovirus genome carrying a reading frame ORF6 under the control of an inducible promoter.

(c) A defective recombinant adenovirus $\Delta E1$, $\Delta E4$, wherein all or part of the E1 region and the whole of the E4 region is deleted.

(d) A method for the production of a recombinant adenovirus which is defective at least for the E4 region, comprising infecting a cell line comprising, inserted into its genome, part of an adenovirus E4 region comprising an ORF6 reading frame under the control of a functional promoter, wherein the inserted E4 region does not contain a functional ORF4 reading frame, with the E4 defective adenovirus and harvesting the adenovirus.

(3) and (4) Claims Corresponding to the Proposed Counts:

The proposed counts correspond exactly to claims 36, 44, 45, and 48 of the present application. All other claims that correspond to one of the proposed counts are dependent on one of these claims. Thus, no other explanation pursuant to Section 1.607(a)(4) is needed.

Proposed Count	U.S. Patent 6,127,175 Claims(s)	Pending Claim(s)
(a)	1, 3, 4, 5, 6, 11, 12, 13, 14, 15, 16, and 19	36, 37, 38, 39, 40, 41, 42, and 43
(b)	23, 24, and 25	45, 46, and 47
(c)	20	44
(d)	33	48

(5) Applying the terms of the pending claims to the disclosure

The terms of the claims have been applied to the specification in the Preliminary Amendment filed herewith.

(6) Compliance with 35 U.S.C. § 135(b)

The claims were added to the application within one year of the issue date of the Vigne '175 patent, as stated in the Preliminary Amendment. As such, the claims are admissible under 35 U.S.C. § 135(b).

B. Basis of Applicants' Entitlement to Judgment of Priority

Applicants request judgment based on the respective effective invention dates of the present application and the Vigne '175 patent. The present application is a continuation of U.S. Patent Application 08/258,416, filed June 10, 1994. The Vigne '175 patent claims priority to three French patent applications, the earliest filed of which (serial no. 95 00747), has a January 20, 1995 filing date.

An inventor can derive no benefit from work done abroad before January 1, 1996 with respect to establishing a date of invention in a WTO country (see, e.g., M.P.E.P. § 2138.02; *Kondo v. Martel*, 220 U.S.P.Q. 47 (Bd. Pat. Inter. 1983)). The invention date of the subject matter of the Vigne '175 patent is, as such, limited to the January 20, 1995 filing date of the French '747 priority application. Accordingly, because the effective *filing* date of the present application is June 10, 1994, over six months before the effective *invention* date of the Vigne '175 patent, Applicants are entitled to judgment of priority with respect to the interfering claims.

00954065-092604

C. Conclusion

Inasmuch as this application claims subject matter interfering with the identified patent and applicants are *prima facie* entitled to a judgment relative to the patentee, the undersigned respectfully urges that an interference between the subject application and the identified patent be declared.

While no fee is believed to be due in connection with this request, the undersigned hereby authorizes the Commissioner of Patents to deduct any fee which might be due to his deposit account, No. 12-1216. A duplicate copy of this Request is enclosed for that purpose.

Respectfully submitted,
